Gordon, Vincent, and Ron reviewing design plans at Ron's showroom

---

Praise God for a wonderful morning! First, a huge thank you to Pastor Chu and all our brothers and sisters who supported the art exhibition fundraiser for our church building fund. Your generosity and effort made a real difference, and we're already seeing the progress being made.

This morning, Gordon, Vincent, and Ron met for 2 hours at Ron's beautiful showroom to work through the design details for our new room. They went over window sizes, glass placement, table layout, and how to balance function with the aesthetic of our existing sanctuary. It was encouraging to see three brothers bring their different gifts (design sense, engineering precision, and practical wisdom) to the table together, debating the details with such care because they want this space to serve our church family well for years to come.

The plan is moving forward in two phases. Phase One covers building the two new rooms: the structure, room layout, window and glass configuration, and the load-bearing considerations. Phase Two will build on that foundation with an upper platform, adding flexible meeting space as our congregation grows.

Please keep this project, and the brothers giving their time to it, in your prayers. We're grateful for every hand and every gift that's making this possible.

We'll also be recruiting helpers for the build. If you're interested in joining the team, check out the details here: Sanctuary Rooms Build Team.
