Help Us Build the Sanctuary Rooms

We are looking for 2 to 3 adults to join the church's sanctuary rooms build team, working alongside builder Ron Xie (???)

Status: Recruiting · Last updated: July 29, 2026

In Short

The two rooms inside the sanctuary are moving from design into construction. This is a church project, led on site by volunteer builder Ron Xie. It needs a small, steady crew of 2 to 3 adults working evenings for roughly one to two weeks.

This is not a large call for volunteers. It is a small team, and we would rather have three people who show up every evening than ten people who come once.

Who We Are Looking For

- **2 to 3 adults.** A small crew that works together for the whole build, not a rotating list.
- **Some hands-on experience.** You have used basic hand tools before and are reasonably handy. You do not need to be a tradesperson.
- **Careful on site.** This matters more than skill. Construction happens in a tight space with other people around. We need people who watch what is happening beside them and behind them, not just in front.
- **Willing to commit to the whole build, for the core team.** We need 2 to 3 people who can be there for the full stretch, this is what makes the schedule work. If you can only help on some evenings, that's still useful, just let us know your availability when you reach out and we'll see where you fit.

The Commitment

- **Time:** 5:30 pm to 9:30 pm, about 4 hours per evening
- **Days:** Monday through Saturday. No Sundays, so it does not touch the worship service or Sunday cleanup.
- **Length:** Roughly 1 to 2 weeks
- **Start date:** TBD, pending material delivery. We will confirm dates with the team before starting.

What You Do Not Need

- You do not need to be a professional builder or carpenter.
- You do not need your own tools.
- You do not need to have been part of the design or feedback process.

How to Sign Up

Please contact **Gordon at +1 (306) 514-2135** by **August 9**. Let us know your name, whether you have used hand tools before, and which evenings you can realistically make.

If you are not sure whether you are a fit, ask. We would rather talk it through than have you rule yourself out.

Background

For what the rooms are, why we are building them, and what the congregation asked for, see [Sanctuary Rooms: What We're Building and What We Need From You](#).
